

TO GROW OUR TEAM IN EYNATTEN (BELGIUM) WE ARE LOOKING FOR

MECHANICAL ENGINEER (M/F/D)

PERMANENT CONTRACT IN FULL TIME

STERISYS was founded in 2008 and is a leading provider of industrial sterilization equipment for medical devices and robotized handling systems for the pharmaceutical industry. We coordinate the international projects from Eynatten, only 12 km away from Aachen.

YOUR RESPONSIBILITIES

- Engineering of components, machines and installations in compliance with the customers' requirements and consideration of all standards
- Ensure technical calculations and advise the project team in all calculation matters
- Develop solutions for new installations and renewals as well as extensions of existing installations
- Cooperate with the project team for cost optimization and risk minimization
- Write technical documentation
- Establish risk assessment and analyses

YOUR PROFILE

- Bachelor or Master Degree in mechanical engineering or similar
- Experience in mechanical engineering is an advantage, but career starters are also welcome
- Ability to organize and structure your daily work
- Strong communication skills and team spirit
- Willingness to travel within Europe
- Good level of German or French; good knowledge of English

OUR OFFER

- Exciting projects in the medical technology and pharmaceutical industry
- Extensive onboarding program to discover the company, colleagues and understand our sector of activities
- Flexible hours
- Personal and professional development through regular training opportunities
- Attractive salary package with additional benefits

ARE YOU UP FOR A NEW CHALLENGE?
